

OpenMeet

Elevate meetings with a next level audience engagement experience

OpenMeet is our audience engagement technology platform for hybrid, live and virtual events. Connect global audiences with our language management features and interactive tools. Making your meetings more memorable and increasing the return on engagement.

MAKE MEETINGS BETTER

Turn passive delegates into active participants

OpenMeet helps you turn your meetings into a two-way, interactive experience that enhances and extends audience participation. Wherever your event, whatever the language, and no matter the format, **OpenMeet** provides a flexible solution that puts audience engagement at the very heart of your event.

Turn meetings into a collaboration opportunity.

Real-time feedback helps you adapt content and messaging throughout the event.

Interactive chats, polls, Q&As allow your audience to participate in your meeting.

The better the engagement, the better the learning. Interactions create activity.

Start building engaging relationships from the very first touchpoint.

Fast-paced, multilingual meetings require adaptable platforms to maintain continuity.

Open Audience Event Support

Our Project Managers will help you to develop your event through every stage. We deliver hybrid, virtual and live events, every year, for some of the worlds leading global organisations – you're in safe hands with us.

Analytics, Insights & Return on Engagement

Tailored to Your Needs

Our aim is to build long-term partnerships with our clients, to engage, inspire and inform their audiences through dynamic interactive experiences. Our expert team can advise you on designing your meeting or conference to maximise audience engagement. We deliver to a high standard and understand the impact that great delivery can bring to an event.

Collaboration

Every event is unique. That's why we believe strongly in working with our clients in a collaborative and open way to discover their needs and 'solve the pain' of their events.

Full-Service Support

We can support our clients throughout their engagement journey, from proposal and design, to onsite delivery, to post-event reporting and analysis.

Project Management

We can project manage, attend client conference calls, and deliver what you or your clients need throughout the event process.

Tailor-Made

We can design to order. On the rare occasion that a client needs a feature that we don't have, we can build it.

Robust Systems

We regularly deliver multiple meetings simultaneously and have systems and processes set up to ensure consistent high-quality service.

Onsite Delivery

Our team are experts in onsite delivery, working with AV teams and managing any final changes, even in real-time.

Multilingual Communication

Our multilingual features allow you to engage any audience, from hosted materials to Q&As with instant translation for the faculty and to the main screen.

Client-Led Development

Open Audience Engage has been developed in response to real client needs. All of the features, from booking systems to feedback forms, have been built with a purpose.

Global Access

Our online engagement platforms work on any internet enabled device, without the need to download an app. We can also source tablets worldwide to support our offline solutions.

Flexibility & Innovation

Our adaptable approach combines different solutions to get the most out of any style of event and be responsive to client needs. We are in control of and fund our own development.

In the current Covid-19 world what is your preferred meeting format for 2021?

OpenMeet

Global audience engagement platform for virtual, hybrid & live events
